PROJECTS

PIM Website:
Collect business requirements, create a wireframe and prototype to ensure alignment with these requirements, gather feedback, and finally develop a user-friendly, responsive website.

React Portfolio
A personal portfolio built with React and Next.js, showcasing my skills in front-end development, UI/UX design, and responsive web development. The portfolio includes sections for my projects, skills, and contact details, designed with a focus on clean, modern aesthetics and user-friendly.
